AI BOSS

THE DAILY AI FLUENCY NEWSPAPER

FRIDAY 6 NOVEMBER 2026 ISSUE 005 AIBOSSHQ.COM

EVIDENCE & JUDGEMENT

A leading question can pull AI away from the facts

A study found that assistants sometimes followed a user's mistaken suggestion. A test with known answers can show whether a tool holds to the evidence when you disagree.

The Tilted Balance

If an assistant changes its answer, look for a new source or a corrected calculation.

When it offers neither, work through the figures before using either reply. Save cases where it followed a wrong suggestion for the next model test.

READING & EVIDENCE

Check the pages an AI summary can miss

byVlado / Unsplash · Illustrative photograph

Language models in a reading test found answers less reliably when the relevant passage sat in the middle of their input.

When a handbook points to an appendix, include the appendix and ask which words support the answer.

EVIDENCE & FEEDBACK

What inspection records miss when a model picks the cases

An unchecked return belongs in the unknown column. Counting it as defect-free can dilute your reported defect rate.

TESTING & OPERATIONS

Test a new AI model against the cases you already handle

Compare old and new model outputs on the same inputs. Check what a person sees and what the next system actually accepts.

THE CROSSWORD DESK

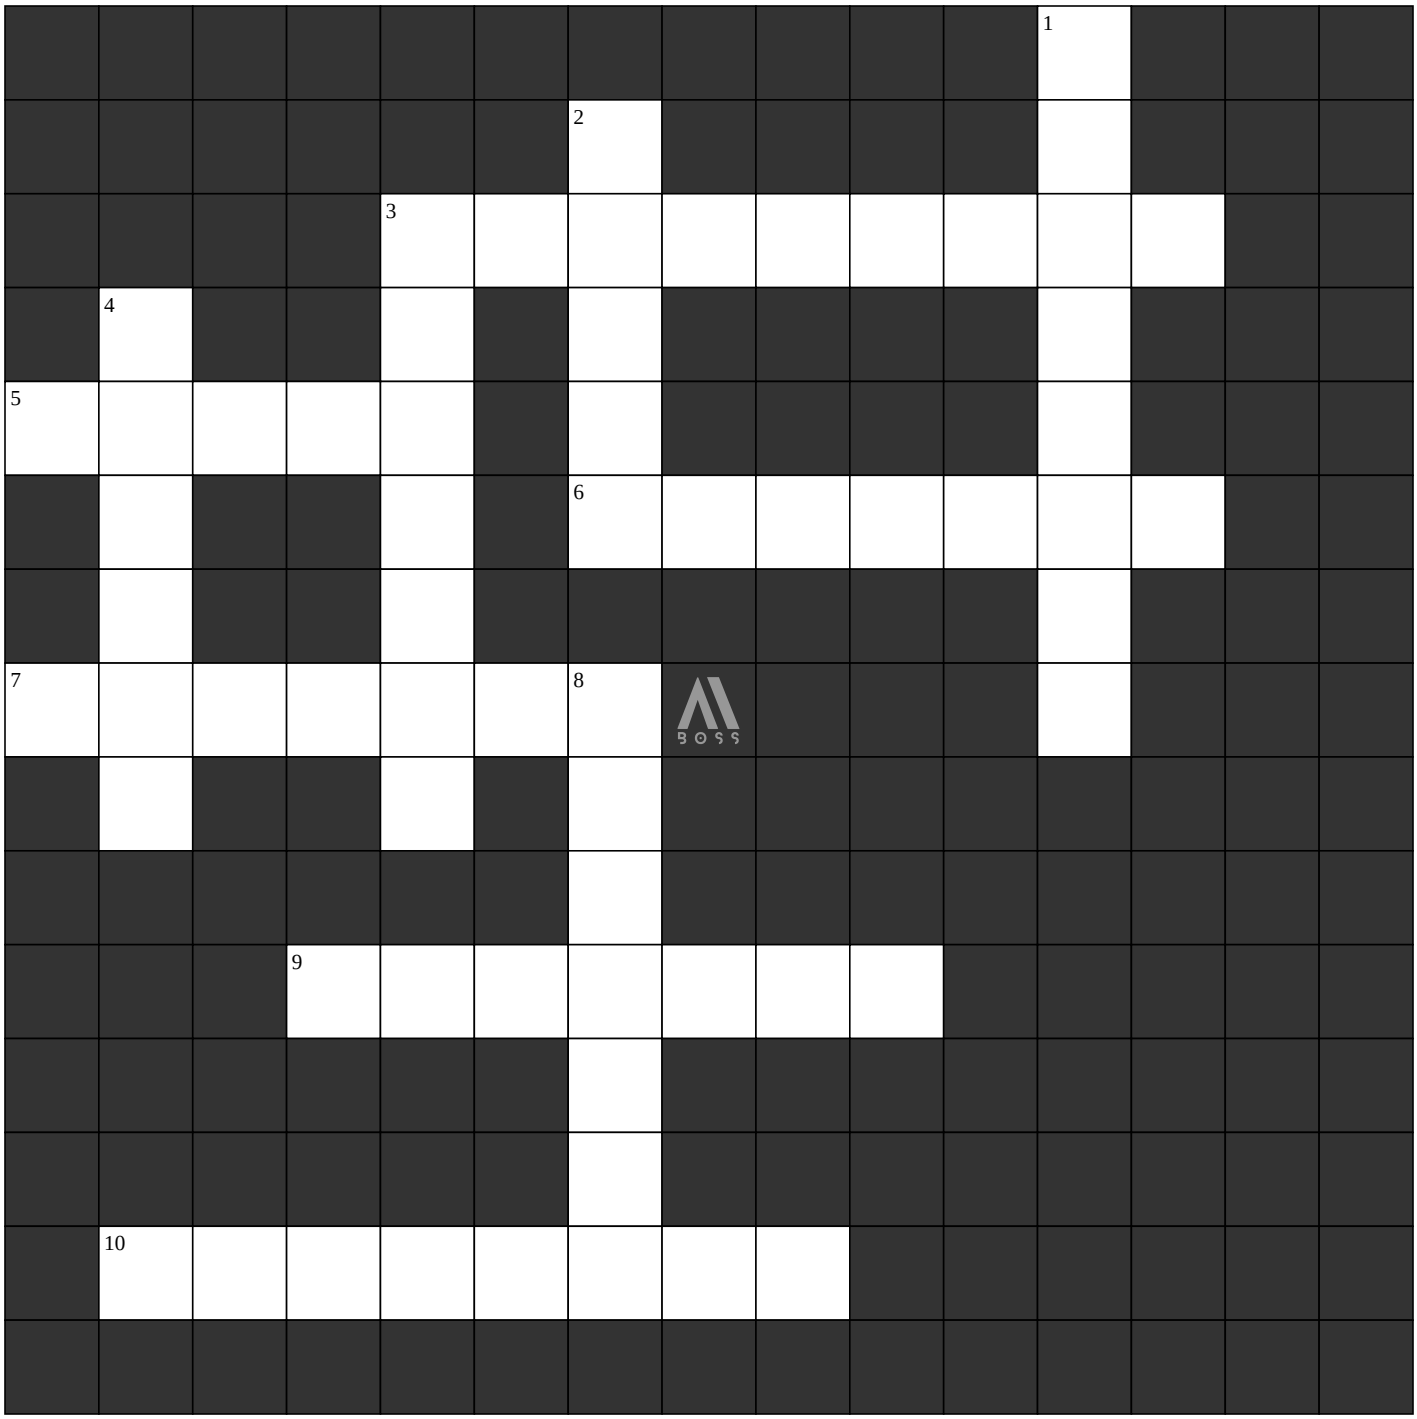

How well do you know your AI?

Practise AI vocabulary and judgement through workplace clues. Play the crossword or fill the grid with Quiz Mode at **aibosshq.com/games/daily/2026-11-06/**.

The printable puzzle follows on page 2. Its solution is on page 3.

Article sources and illustration credits appear with the full essays.

ACROSS

3. Record of notable changes across versions. (9)
5. Run the same test again. (5)
6. Set kept apart for final testing. (7)
7. Formal approval to proceed. (7)
9. Choose to give no answer. (7)
10. Test a rule against past observations. (8)

DOWN

1. Condition agreed in advance for ending a test. (8)
2. Software change that fixes a specific fault. (5)
3. Comparison condition in an experiment. (7)
4. Measure used to track performance. (6)
8. Known setup or input reused in tests. (7)
