PRIVACY AND WORK

Gemini will let you keep chat history and opt out of training

Google announced separate controls for its Gemini app. Check what your account actually shows before you change how staff use it.

Paper Kept Apart
AI-generated artwork · AI Boss Ltd

Try the switches with a made-up message about Saturday opening hours.

Reload Gemini and check that the test chat is still visible. Decide separately which information staff may copy into the tool.

HEALTH ADMINISTRATION

An AI agent can draft a clinic referral. Who checks the destination?

Illustrative photograph by Martha Dominguez de Gouveia / Unsplash

OpenAI says its healthcare tools can move between apps. A mock referral shows what a clinic should check before giving software permission to send.

Test whether a missing destination leaves the referral in the review queue.

REGIONAL ECONOMY

What would it take for AI to speed up a Caribbean business?

A garment shop deciding whether to buy AI can check whether incomplete orders cause more delays than typing.

THE CROSSWORD DESK

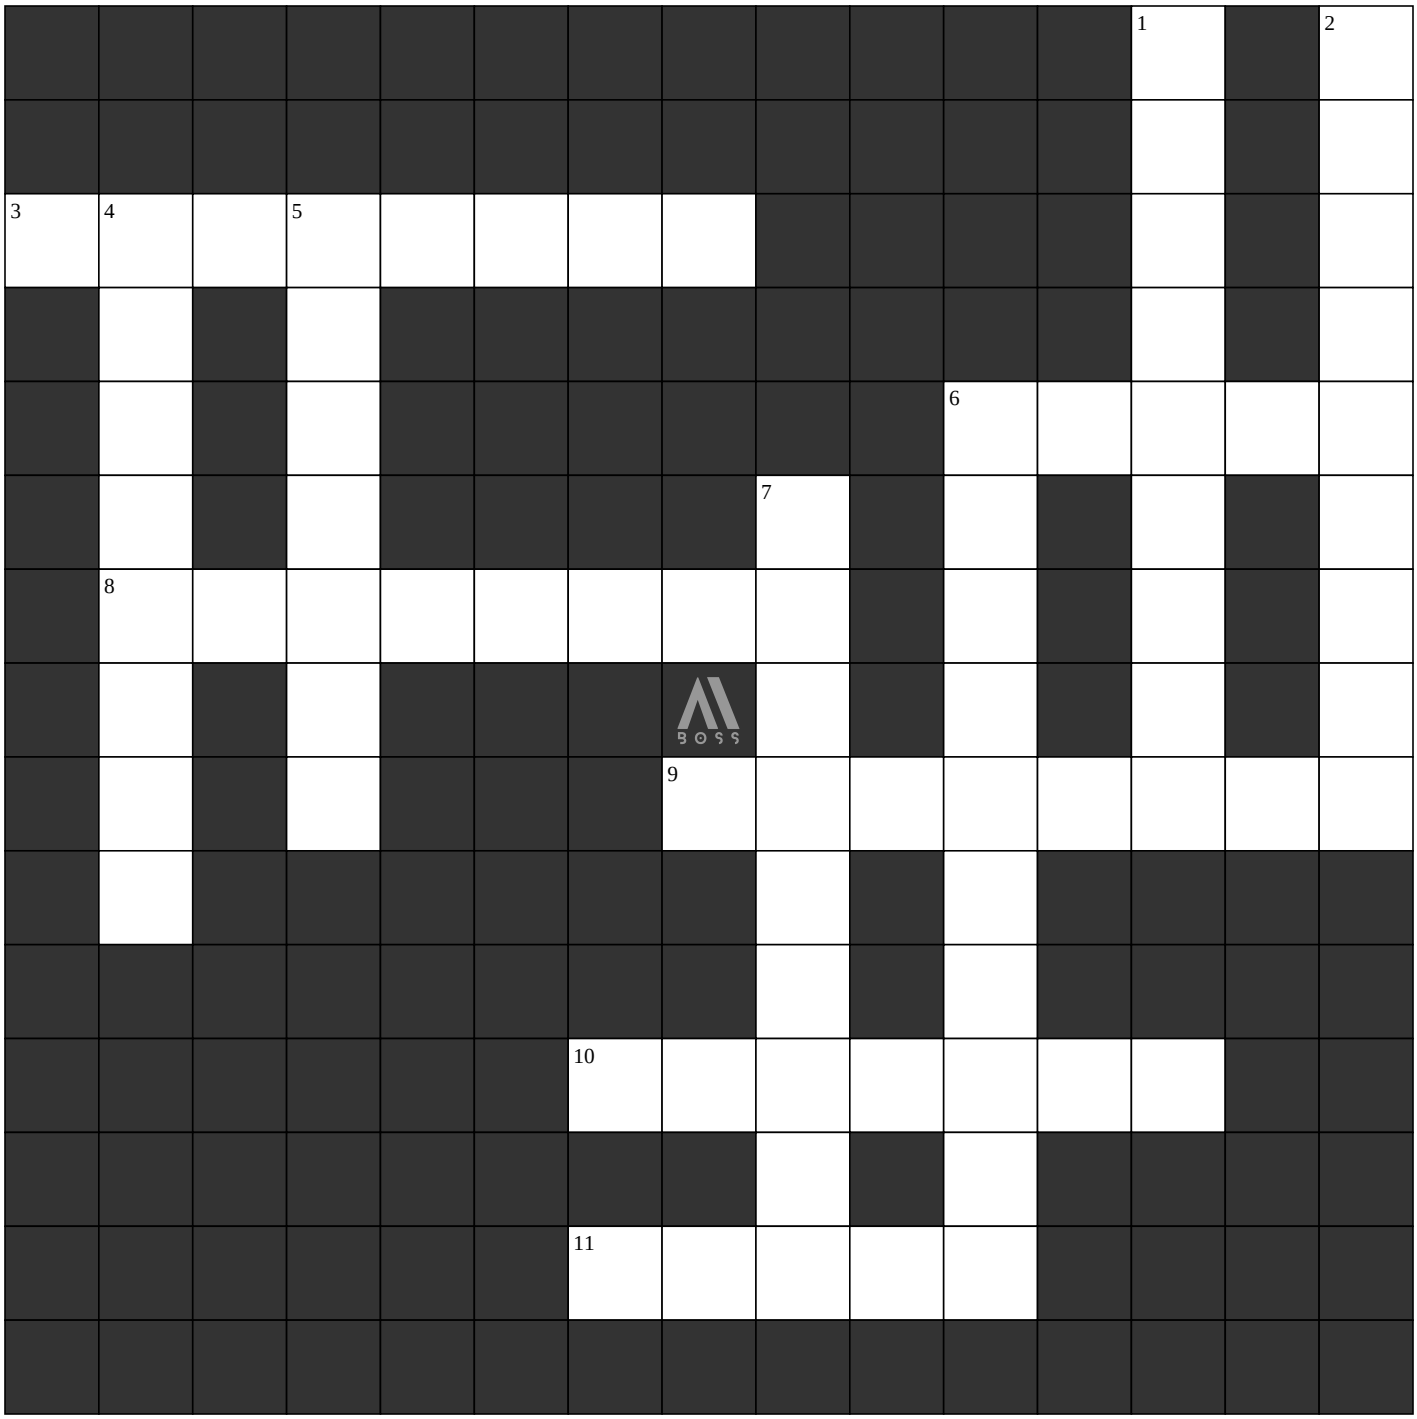

What has to happen first?

Practise AI vocabulary and judgement through workplace clues. Play the crossword or fill the grid with Quiz Mode at **aibosshq.com/games/daily/2026-11-17/**.

The printable puzzle follows on page 2. Its solution is on page 3.

Article sources and illustration credits appear with the full essays.

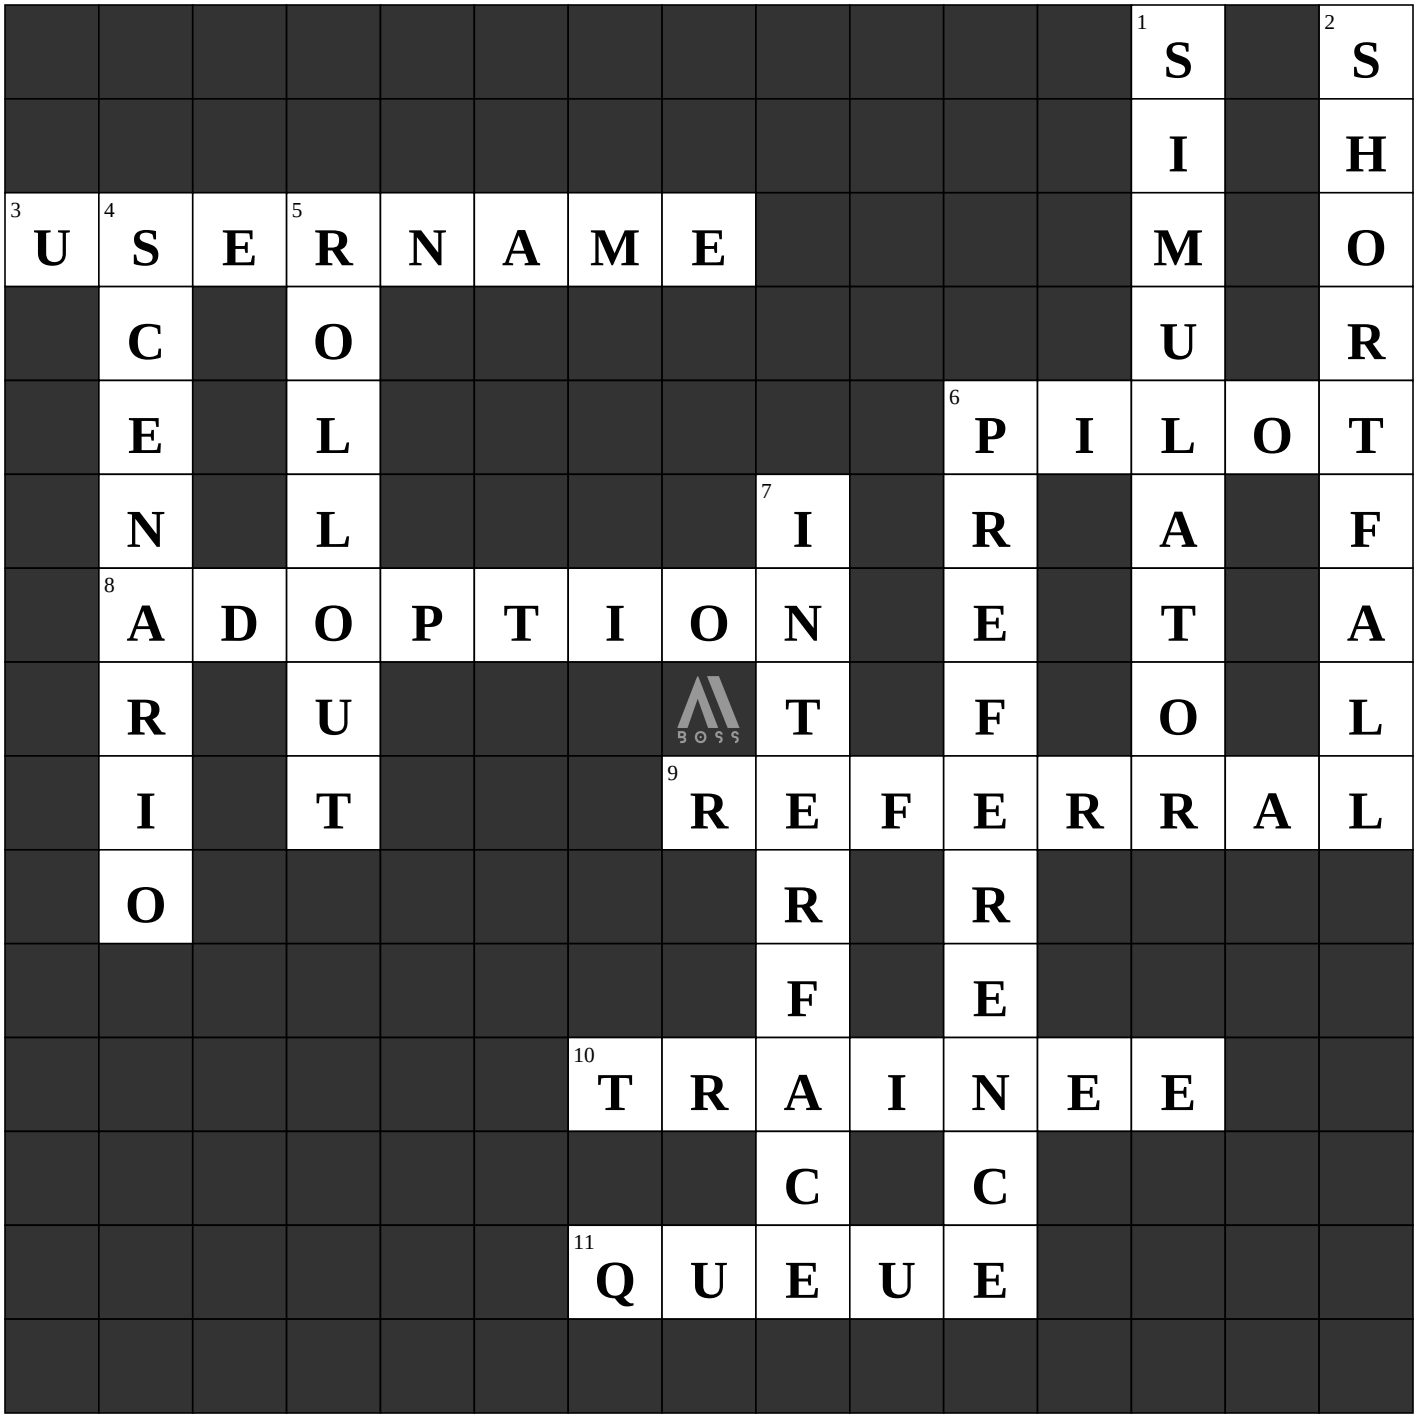

ACROSS

3. Name used to sign in to an account. (8)
6. A trial conducted on a small scale before wider use. (5)
8. Beginning to use a method or tool. (8)
9. A request to send someone on for specialist help. (8)
10. A person learning to do a job. (7)
11. A line of people or tasks waiting their turn. (5)

DOWN

1. A tool that mimics a process for practice. (9)
2. The amount by which a supply falls below a need. (9)
4. An imagined situation used to think through what could happen. (8)
5. The process of making a feature available to users. (7)
6. A choice someone favours over another option. (10)
7. Where a user interacts with a system. (9)
